Hepatitis B Vaccination

Please can you read the following risk groups and if you consider yourself to be in any of these groups please mark your travel form accordingly so that you may discuss with the Practice Nurse your suitability for hepatitis B immunisation.

At risk groups

1. Babies who are born to mothers who are chronic carriers of hepatitis B virus or to mothers who have had acute hepatitis B during pregnancy.
2. Intravenous drug misusers
3. Individuals who are likely to change sexual partners frequently or have unprotected sex while visiting a high risk area.
4. Close family contacts of a case or carrier.
5. Families adopting children from countries with a high risk of hepatitis B.
6. Haemophiliacs.
7. Patients with chronic renal failure if receiving haemodialysis
8. Travellers to areas of high risk if:-
 - a) Working as a healthcare worker
 - b) If they may need medical or dental treatment
9. Travellers who are involved in contact sports – adventure holidays in high risk areas, eg. Rugby tour, white water rafting.
